

E-INK ELECTRONIC NOTEPAD 6.8"

EN-680

6.8" E-Reading & E-Writing Device

TeamUC's E-ink EPD technology offers great writing experiences to truly live up to the write like paper. TeamUC eNote has a contrast ratio similar to that of a pen writing on paper, the bi-stability gives eNote extraordinary battery life without charging. The writing capability can be used to enhance digital note-taking, digital learning, digital designing, digital signing and more.

6.8 eNote Application and Specification

Digital Signing

Digital Note taking

Digital Designing

EN-680	
<u>Hardware</u>	
Display	6.8" Carta Display
Resolution	1440x1080 pixels
Color	16 grey level
LED indicator	White LED
Touch Technology	Single touch IR Touch
CPU	Cortex A9 1GHz
System Memory	LPDDR2 512MB
Flash Memory	4GB eMMC type on board
Battery	Li-ploymer battery 3.7V, 1500mAH
Battery Recharge Cycles	300 times
Battery Life	5 hours of continuous input
AC Charging	Via micro USB connector
OS	Android 4.4.x
<u>Peripheral</u>	
AC Charger	Optional
Cable	Micro-USB cable 100cm
Stylus	One
<u>Environment</u>	
Operational Temperature	0 C° - 45 C°
Storage Temperature	-10 C°- 60 C°
Certification	RoHS, CE, FCC
<u>Package</u>	
Dimension	177.5x130.5x12mm
Weight	280g
